## A sustainable Firm

In **Barros & Errázuriz** we firmly believe in the importance of creating social value internally and externally, promoting the well-being of our society and our employees.

### PRO BONO

It is an integral part of our practice. The seriousness with which we have assumed this commitment is reflected in the dedication of our lawyers to pro bono work in areas as diverse as civil, commercial, tax and judicial. We were the 2018 Pro Bono Firm.

### DIVERSITY

We believe in and encourage diversity of talent, complementary skills and collective work to generate quality results and a strong commitment to our clients. We guide the professional development of our employees based on talent and merit. We generate specific projects to promote integration and equal opportunities, such as the Barros & Errázuriz Scholarship, aimed at supporting law students with lack of economic resources, together with an internship in our offices.

### COMMUNITY

Part of the value we seek to generate in society is to support various organizations, through financial support, legal advice and field work
