# GLOBAL WATER INTELLIGENCE MAGAZINE

The unchallenged leader in high-value business information for the water industry.

## GWI MAGAZINE

The industry-leading publication for the global water industry.

Recognised as an essential source of news and analysis in the international water industry, we spend hours on the phone talking to the industry's key players, giving you access to exclusive news and opinion. Our coverage is trusted by water sector professionals worldwide who need competitive intelligence on regional and technology water markets, smart water, finance and M&A, and project opportunities.

Available in print and online, GWI Magazine is your dedicated news and information service, providing you with a stream of high-value news stories, analysis, commentaries and project leads for every part of the water industry.

*"The best water magazine in the market"*

Maria J. Fernandez,  
Veolia Water Technologies Ibérica

## MARKET ANALYSIS

### News from Your Core and Target Markets

Read articles unpacking the latest water market news stories from every region, and what they mean for your business. Stay updated courtesy of our unparalleled team of in-country journalists, covering Europe, The Americas, Asia Pacific and the Middle East & Africa.

## INSIGHTS

### Market Data and Analysis for Your Sector

We break down utility strategies, industrial water user perspectives, the latest company developments, and trends in the desalination and reuse markets. Get dedicated news, analysis and insider insights for the sector you're interested in.

## TECHNOLOGY

### Dedicated Technology Section

GWI Magazine's Chief Technology Officer section is the ultimate intelligence centre for all key technology decision makers. Read industry-leading coverage of the most important smart water and technology markets, end-user perspectives & technology strategies, and expert reviews of the latest innovations for water and wastewater.

## PROJECT TRACKER

### Recently Expanded and Updated Daily

The GWI Project Tracker monitors over 1,300 live water, wastewater, desalination and reuse projects, from conception through to financial close. Identify your sales leads more effectively, get involved in projects before they go to tender, and stay head of your competitors in your target markets.
